

3M SPEEDGLAS 9100XXI WELDING HELMET

SKU: 501826

£395.45 ex VAT

Stock: Available to Order (3-5 Days) Ordered in and delivered within 3-5 days.

A delay function sets the dark-to-light opening time, and it's possible to lock-in any shade, e.g. in light state 3 when grinding. It has a switching time (light-dark) of 0.1 ms, and the sensitivity of the arc detection can be adjusted for reliable switching. Tack welding comfort mode also helps minimise eye strain during extended tack welding applications. High-comfort Speedglas headband 9100 with smooth ratchet for precise tightening. Helmet is compatible with most 3M™ Safety Spectacles and/or 3M™ Disposable or Reusable Welding Particulate Respirators.

Features

- Auto Darkening Lenses with seven variable dark shades (5, 8, and 9-13) for most types of arc welding
- Compatibility with many 3M™ Safety Spectacles and/or 3M™ Disposable or Reusable Welding Particulate Respirators
- Ergonomically-designed head suspension for comfort during use
- Specifically designed to be compatible with the 3M™ Speedglas™ Welding Filter Series 9100.
