

3M VERSAFLO TR-315 POWERED AIR UNIT

SKU: TR315

£724.50 ex VAT

Stock: Available to Order (2-3 Days) Ordered in and delivered within 2-3 days.

This lightweight turbo unit fits your chosen headtop via a breathing tube giving a versatile respiratory protective system for environments with hazardous particles. The unit is worn on a belt and is supplied with a Li-Ion battery for the long life that charges quickly with no memory effect, an electronic audible and visual alarm warns of low battery and/or low airflow for extra safety.

The downward air inlet enables you to sit while using the unit. The flow rate of 160 litres per minute is constant as the motor compensates for particles collecting in the filter, giving a run time of 10 to 12 hours.

- Highly Efficient filter captures hazardous dust, mist and fume plus options for nuisance level gases and vapours
- Lightweight and compact
- Extremely slim, lightweight, balanced design for outstanding comfort
- Intelligent lithium-ion battery quickly charges, has no memory effect and incorporates useful charge indicator
- Electronic audible and visual alarm in case of low battery and/or low air flow
- Approved to EN12941 class TH2 or TH3 dependent on a headcover, hood, visor and helmet

Included in the kit:

- TR-302E Turbo
- Unit TR-3712 P Filter
- Pre-filter pack of 10
- Spark Arrestor
- Standard belt
- High capacity battery
- Charger kit (UK)
- Length adjusting breathing tube
