BlackMark Light Masking Foil is a versatile, non-adhesive, heat-resistant foil designed to control light spill and eliminate reflections. With its non-reflective matte black finish, it is the ideal solution for precision light masking in film, theater, and photography.

- **Non-Adhesive Design:** Allows for easy repositioning and reuse on various surfaces.
- **Non-Reflective Matte Black Finish:** Effectively blocks unwanted light and reduces glare.
- **Heat-Resistant:** Performs reliably in high-temperature environments, ideal for use near lighting equipment.
- **Flexible and Malleable:** Easily shaped to fit around fixtures, edges, and irregular surfaces.
- **Professional Grade:** Perfect for film, stage, and photography applications requiring precise light control.
