

BLS ZERO 31 SERIES DISPOSABLE RESPIRATOR FFP3 R D (C) (10 BOX)

SKU: BLS031C

£39.95 ex VAT

Stock: In Stock Order before 3pm for Next Day Delivery. 3

The reusable BLS Zero FFP3 Respirator has an extremely low breathing resistance and is made from a breathable material with an added carbon layer to absorb nuisance odours.

The outer textile layer ensures high filter efficiency by reliably protecting against coarse dust, liquids, and mechanical stress.

The FFP3 dust mask is equipped with Nanofiltration for the very best respiratory protection.

BLS Zero Dust Mask is a revolutionary mask with FFP3 protection. Thanks to the exhalation valve, the exhaled air is concentrated in two zones with a maximum aperture. With these improvements, breathing resistance decreases considerably.

BLS Zero Respirator guarantees an optimal fit. This mask is provided with a pleasant touch layer that absorbs perspiration and keeps the skin cool and dry.

- Full gasket
- Perfect fit
- Activated carbon layer for improved absorption of nuisance odours, organic vapours and welding fumes
- Pre-formed and elastic support
- Can be used in combination with glasses
- The external protective layer that repels dirt, dust, and water
