- Thermal resistant between -40ºC and 85ºC
- Available in Natural and Yellow
- 100 ties per Pack

Prevent loss and damage with these multi-purpose cable ties. Cable ties are designed to secure wires and prevent tangling, but they can be used in a massive range of applications. Use to affix signs and notices, to secure storage systems, to make temporary repairs and to seal items for packing.

The cable ties are designed to lock in place once applied, so the strip cannot be pulled loose and the tie will hold securely. To remove, they must be cut. They provide a visual guide to tampering and help ensure electrical equipment remains safe and untouched.
