The **JSP PowerCap® Active** is a compact, fully integrated powered respirator designed to provide superior respiratory protection in dusty environments. Combining a safety helmet with a powered air-purifying system, it delivers a constant supply of clean, filtered air, reducing fatigue and ensuring all-day comfort for professionals working in construction, woodworking, agriculture, and more.

- **Integrated Powered Respiratory Protection:** Provides clean, filtered air for enhanced safety and comfort.
- **Lightweight and Compact Design:** Reduces strain and improves wearability for extended use.
- **High-Efficiency Filters:** Captures airborne dust and particles for reliable protection.
- **Rechargeable Battery:** Long-lasting power for uninterrupted use.
- **Easy to Use:** No hoses or cumbersome attachments, offering unrestricted movement.
