

MOLDEX 5230 COMPACT REUSABLE HALF MASK FFA2P3RD

SKU: M5230

£23.35 ex VAT

Stock: Out of stock Currently unavailable. This item will be delivered when stock arrives. 0

The Moldex CompactMask is a maintenance-free half mask with horizontally shaped integrated filters and a low-profile design for an excellent field of vision. It can be worn with other safety equipment, including face shields, welding helmets and goggles.

The Moldex pleated filter technology has more than double the filter surface, reducing breathing resistance significantly and increasing the service life of the particulate filters, making this mask extremely comfortable, cost-effective and durable.

The mask has an innovative FlexFit in the nose area that provides a secure and comfortable fit. The mask body is smooth and gentle on the skin and automatically adjusts to different face shapes and movements.

The CompactMask conforms to EN405:2001+A1:2009 and provides protection against gas, vapour and dust.

Protection level: FFA2 P3 RD.
