

NUMATIC NRV 240-11 VACUUM CLEANER

SKU: NUM240

£132.59 ex VAT

Stock: In Stock Order before 3pm for Next Day Delivery. 1

The NRV240-11 Henry Hoover from Numatic features ProFlo technology for reduced consumption which doesn't hinder the performance of this vacuum cleaner on carpets and hard floors. The NRV240-11 Henry comes with a wide floor tool that can be used with the brush up for carpets, or with the brush down for hard floors. With a higher and wider base than the standard Henry Hoover, the NRV240-11 commercial vacuum model has a greater capacity for commercial cleaning and more stability thanks to its skirt and deeper set wheels, reducing the risk of the vacuum from toppling over. The commercial Henry comes with a 12.5m power cable that rewinds into the built-in cable storage system, meaning this vacuum cleaner won't be a hazard when it is not being used.

The Numatic NRV240-11 Commercial Henry Hoover with ProFlo technology comes with;

- Crevice tool
- Dusting brush
- Hose with the super long cuff on the end
- Super high filtration with Tritex filter
- An extra-wide floor tool that can be used with the brush up (for carpets), or down (for hard floors)
- A 12.5m long cable which gives a great cleaning range of 31.8 m
- A bigger and more stable drum compared to normal Henry Hoovers
- The whole base of the machine is higher and wider, giving greater capacity and more stability
- The rear wheels are set back, making the vacuum cleaner even harder to knock over which is perfect for commercial environments
