CE Marked

Contains 0.9% sodium chloride solution

Safe to use on children

Individually sterile wrapped

Sterile Saline Wipes are ideal for cleaning wounds prior to dressing. They are safe to use on children as they will not irritate sensitise skin. Gently apply to clean injuries, cuts and surrounding areas.

Each Wipe is impregnated with a 0.9% sodium chloride solution for gentle wound cleansing. The wipes clear dirt and blood from the skin, this kills bacteria and prevents wound infection. It also prepares the skin so that a dressing will stick better. The Wipes come in convenient foil packs to make skin cleansing as easy as using alcohol wipes, but without the strong odour. Box of 100 wipes.
